EDUCATION

The Ohio State University

Columbus, OH

Human-Computer Interaction

Personalized Study Program based on curricula at
Stanford, Berkeley, UWash, and CMU

HONORS & AWARDS

The Leadership Collaborative

Participant / Aug 2012

A year-long leadership development program for a cohort of 80 emerging leaders; the LC is Ohio State's most competitive and prestigious First Year program.

R-LEAD

Participant / Aug 2012

A three-day, transitional leadership program, focusing on the enrichment of highly engaged, student leaders living in residence halls on campus.

Maximus Scholarship

Recipient / Aug 2012

Recipients rank in the top three percent of their graduating classes and have ACT composite scores of 32 or higher.

EXPERIENCE

Digiday Media / Web Developer

New York, NY / Feb 2016 – Present

Managed the continued development of [Digiday.com](https://digiday.com), led all development of [Glossy](#) and [Tradestreaming](#), Digiday's latest verticals. Each use an uncoupled CMS with Node/Express middleware and an AngularJS front end. Eye for design, passion of UX, and knowledge of best coding practices critical for everyday work.

Core-apps LLC / Contract Front-end Developer

Remote / Feb 2014 – Present

Quality Assurance Internship focused on designing comprehensive testing methodologies for everything from mobile/web apps to backend administrative and database functionality turned into a front-end position creating informational HTML/CSS screens for clients, occasionally involving jQuery interaction or animation.

General Assembly / Web Development Immersive

New York, NY / Sep 2015 – Dec 2015

Three months of intense, experience-based work in some of the most important languages used today. Built many web apps from scratch including a JavaScript web game, a Full Stack Rails app for creating and sharing travel itineraries, and a MEAN Stack app for saving articles, images, and videos via a Chrome Extension.

Give Back Hack (Community Capital) / UX Lead

Columbus, OH / Apr 17 – 19 2015

Weekend-long event that brings together passionate community members to develop sustainable, technology-based solutions to some of the most pressing social issues. Co-created a community financial alternative to predatory payday lenders — Began UX/UI development of a streamlined, user-friendly web portal for loan application, management, and financial wellbeing.

Startup Weekend (Catalyze Columbus) / UX Lead

Columbus, OH / Nov 14 – 16 2014

Collaborated with a group of entrepreneurs, designers, and developers to create a website in a 54 hour timeframe that matched nonprofits in need of services with talented artistic professionals. Led design, feature, and usability discussions, created wireframes, mockups, and paper prototypes to guide development team.

PROJECTS

Locker. / MEAN Full Stack with a custom Chrome Extension

Online locker to store anything a users wants via Embedly including videos, articles, images, etc.

Rendezvous / Ruby Full Stack with Rails and PostgreSQL

An itinerary creator that allows users set their itineraries as private or public to share with friends, works to make planning travel easier.

Timeline / Javascript Full Stack (MongoDB, Express, Node.js)

Activity and location tracker; gives user visual account of where she spends most of her time throughout her week or month. Uses W3C Geolocation API and Google Maps API with Socket.io.
