Columbus, OH
Human-Computer Interaction
Personalized Study Program based on curricula at
Stanford, Berkeley, UWash, and CMU

HONORS & AWARDS

The Leadership Collaborative
Participant / Aug 2012
A year-long leadership development program for a
cohort of 80 emerging leaders; the LC is Ohio State's
most competitive and prestigious First Year program.

R-LEAD
Participant / Aug 2012
A three-day, transitional leadership program, focusing
on the enrichment of highly engaged, student
leaders living in residence halls on campus.

Maximus Scholarship
Recipient / Aug 2012
Recipients rank in the top three percent of their
graduating classes and have ACT composite scores
of 32 or higher.

EXPERIENCE

General Assembly / *Web Development Immersive*
Manhattan, NY / Sep 2015 – Dec 2015
Three months of intense, experience-based work in some of the
most important languages used today. Built many web apps from
scratch including a JavaScript web game, a Full Stack Rails app for
creating and sharing travel itineraries, and a MEAN Stack app for
saving articles, images, and videos via a Chrome Extension.

Core-apps LLC / *QA Tester and Web Designer*
Remote / Feb 2014 – Sep 2015
Designed comprehensive testing methodologies for everything
from mobile/web apps to backend administrative and database
functionality, all while focusing on providing valuable UX/UI Design
feedback.

Give Back Hack (Community Capital) / *UX Lead*
Columbus, OH / Apr 17 – 19 2015
Weekend-long event that brings together passionate community
members to develop sustainable, technology-based solutions to
some of the most pressing social issues. Co-created a community
financial alternative to predatory payday lenders — Began UX/UI
development of a streamlined, user-friendly web portal for loan
application, management, and financial wellbeing.

Startup Weekend (Catalyze Columbus) / *UX Lead*
Columbus, OH / Nov 14 – 16 2014
Collaborated with a group of entrepreneurs, designers, and
developers to create a website in a 54 hour timeframe that matched
nonprofits in need of services with talented artistic professionals.
Led design, feature, and usability discussions, created wireframes,
mockups, and paper prototypes to guide development team.

The Ohio State University / *IT Student Assistant*
Columbus, OH / Sep 2012 – Jan 2014
Devised innovative solutions for all hardware and software IT
requirements: planned, implemented, and repaired a variety of
workstations, servers, and networks while assisting faculty with any
additional technological needs.

PROJECTS

Locker. / *MEAN Full Stack with a custom Chrome Extension*
Online locker to store anything a users wants without the
distractions of other websites: capable of storing videos, articles,
images, etc.

Rendezvous / *Ruby Full Stack with Rails and PostgreSQL*
An itinerary creator that allows users set their itineraries as private or
public to share with friends. The app works to make planning group
travel much easier.

Timeline / *Javascript Full Stack (MongoDB, Express, Node.js)*
Activity and location tracker; each time a user logs in her location
and time is recorded, so that she may have a visual account of
where she spends most of her time throughout her week or month.
